**REMOTE VIEWING**  
All the software required for viewing your images at the DVR, locally over the LAN or remotely via WAN or dial-up is included. No surprise extra charges. Internet viewing regardless of dynamic or static IP's allow all remote connections to be successful.

## INTERNET CONNECTIONS (Dynamic IP)

Dynamic IP support INCLUDED with TotalSecure Install CD, no 3rd party connection involved.

End users can use their own website to link them to their TotalSecure DVR over the internet. Dealers can use their own website to host their client links as a value added service.

Or use one of the services available from TotalSecure. Allow us to act as your client or your business gateway. Visit [www.TotalSecure.ca](http://www.TotalSecure.ca) and clients can enter their login and password and view their sites - as easy to do as it reads here. Or dealers - let us host your dealer website and have clients link via your site - many options available.
